ONE YEAR ONE DOLLAR

FOR REPRESENTATIVE.

We are authorized to announce

T. J. NICKEL

a candidate to represent Crittenden and Livingston counties in the next General Assembly of Kentucky. His candidacy is subject to the action of the Democratic party. Election November 1890.

THE LEGISLATURE.

In the heated contest for Governor, no Democrat can afford to overlook the contest for the Legislature. The result of this contest is laden with matters of the very greatest importance to the people and especially to the party. It is not a question altogether as to whether Mr. Nickel or Mr. Blackburn shall be the representative. The personality of these gentlemen is merged into the issues. The next legislature elects a United States Senator, and that Senator when he takes his place in the Senate at Washington will vote with Mark Hanna to uphold and perpetuate the gold standard, the trusts and the tariff, and every other principle and policy opposed to Democracy, or he will vote for all that Democracy stands for. Which shall it be? This question may be answered by the result of the legislative race. Should Mr. Nickel be elected, the vote and voice of the people of Crittenden and Livingston are paying 17 instead of 10 cents for spelling books for their children, \$1.20 instead of 75 cents for their complete geography, and so on through the entire list. Democrats, can you afford to follow the leadership of a man whose record contradicts his argument against the election law, and whose record belies his own words, where he claims to be a friend of the people?

Should E. B. Blackburn be elected the voice and vote of the people of Crittenden and Livingston counties will be cast for a Republican, for a man who will uphold the hands of Wm McKinley, should he be re-elected President in 1900, for a man who will stand by Republican principles and vote Democratic sentiments.

To us it is dying this point, Mr. Nickel is not going to tell you that he will vote for a Republican Senator, and Mr. Blackburn will be many, many years older before he tells you that he will vote for a Democratic Senator, or anything else Democratic.

Four years ago, Blackburn defeated Nickel for R representative in the two counties, and so nearly everyone in the two parties in the legislature that had Nickel been elected, a Democratic instead of a Republican United States Senator would, in all probability, have been elected.

The two parties may be as evenly divided this year as then, hence the importance of the legislative race.

In State matters Mr. Nickel stands with Mr. Goebel on the School book bill, the McCord railroad bill, and on the separate coach law. He will support the China school book bill; he will support the McCord bill; he will oppose any effort to abolish the separate coach law, but stand by Mr. Goebel's plan as expressed elsewhere in this paper, and vote against a bill to abolish the law.

In State matters Mr. Blackburn stands, we presume with Mr. Taylor. He is opposed to the China school book bill; he is opposed to the McCord bill, he is opposed to the separate coach law and would vote for a bill to abolish the law.

Here the issues are as clearly defined as on national questions, and the voter at the polls expresses his sentiments on these questions in making his choice between the two candidates for the legislature.

These are issues, pure and simple, the people settle them, for it is unreasonable to suppose the man elected will do his best to carry out that which his party is pledged to. Mr. Blackburn's record in the House leaves no man in doubt as to what he will do. He believes his party is right and he sticks as close to it as does any other Republican in the two counties, and whenever and wherever an opportunity presents, as a member of the legislature, he would "put in one" against a Democrat and any Democrat measure.

Mr. Nickel is a straight Democrat, a worthy, deserving man, one of the plain people and bears the standard of his party, honestly won his nomination, and, if elected, will be as true to his trust as any man that ever bore a commission from the people of the two counties. Democrat, a vote cast for "Uncle Jeff" is a vote for a safe, sound man, and against a Democrat as the district attorney.

The Louisville and Nashville railroad company is turning its two hired newspapers alone upon the people of the State, without money and without price. It sends 100 copies of the Louisville Post to Marion and pays a boy the cold cash to deliver them. The Post is the self-same sheet that depounces Bryan as an anarchist, and applied every epithet

cause, and to the people who believed in it. It is the self-same sheet that fought P. Wat Hardin for governor four years ago. In '95 and '96 it openly advocated the cause of the Republicans. It has profited by its experience and now thinks it can do more harm to Democracy by advocating a man the only object of whose candidacy is to divide the Democratic party. No Democrat who believes in Bryan, no Democrat who believes the people and not the trusts should rule, no Democrat who believes in cheaper school books can afford to be led astray by the Louisville Post, always owned by the L. and N., nor by the Louisville Dispatch, a recent purchase of the L. and N. Democrats, do not be deceived by the Brown movement, which is a ruse of the enemy to mislead you.

The honorable George H. Alexander, of Louisville, was in Crittenden and Livingston counties last week looking for somebody to speak to in behalf of the bolters. The honorable Geo. H. was a member of the Democratic caucus of the Legislature that endorsed the Goebel election law, and the honorable Geo. H. made a speech that caucused advocating that law, and now he is around advocating the repeal of the law he so vociferously helped to pass. What kind of a statesman is that? Ye, puritanists, here is one of your admirable highcockalorum around advocating the death of his own child. Is he the kind of man who advises and council you can afford to take? He also voted against the school book bill, and on account of his vote, together with that some other gentlemen who are too good to vote for Goebel, the people of Crittenden and Livingston are paying 17 instead of 10 cents for spelling books for their children, \$1.20 instead of 75 cents for their complete geography, and so on through the entire list. Democrats, can you afford to follow the leadership of a man whose record contradicts his argument against the election law, and whose record belies his own words, where he claims to be a friend of the people?

There is a kind of fish that befriends its prey by emitting a substance that so thoroughly discolors and darkens the water that escape is impossible. The Louisville and Nashville railroad has evidently been studying the habits of that denizen of the salt waters, and it is trying to destroy the Democratic party and hide the issues by making the political waters murky with shade of Mr. Goebel. That big corporation learned in its fight against Mr. Bryan in Kentucky in 1896 that it would be a losing fight to stand squarely before the party on the issues again, hence its plan is to divide the party and lose its members in a fog to be created by the Louisville Post, and John Whalen.

These knights of purity are paid to make the fog, but the horn of the machine, leader, Wm. J. Bryan, is sounding throughout Kentucky and the Democrat who fails to follow is simply headed for the old and ancient enemy's camp, and the chances are that he will get there by 1900.

DYCESBURG.

Our school is progressing nicely. Prof. Robinson and sister are teaching the best school that has been taught here for many years, and by the way professor Bob is a first class young man, and is making lots of friends in this part of old Crittenden.

Dr. T. L. Phillips is quite sick; he is greatly missed by the sick, as he has a large practice.

Miss Core Clifton has been confined to her room several days with a sickness.

Our little town is improving, some new residences going up. Col. Marvin B. Charles is building a nice residence, and Mrs. Hayward has just completed a very handsome residence and our trustees are having sidewalks built wherever they are needed.

Will Clifton returned Sunday from Louisville where he had been several days.

Capt. James Holmes, of Kuttawa, has been here some time doing some fine painting. He is thinking of locating here and going into the furniture and undertaker's business and forming a co-partnership with a young widow living here. Good luck to you, Capt. Jim.

But two little boats in the Cumberland now.

Our farmers say there will be a large crop of wheat sown this fall.

Sam Cassady has the longest walking stick of any man in the county.

Well, our school board is in trouble again over some tax money, but they have agreed to arbitrate the matter and both parties have selected their men. Hope the matter may be settled satisfactorily and not cause as much trouble as selling the money did.

S. W. Burk has gone to Paducah on business.

David Barnes is the champion squirrel hunter of this place.

Now, I wish to say that if Judge Nunn made this statement, he was in part mistaken. It was this way: Mr. T. J. Yates, of Dycesburg, furnished me a round trip ticket from Kuttawa to Louisville and one from Louisville to Lexington, and I did not pay him a cent for them. I will also say that I was furnished with breakfast on the train, for which I did not have to pay for. But as to my expenses while in Lexington, I will say that I paid for my dinner, which was all the expense I incurred there—I would have accepted my dinner free had it been offered me.

Now, I understand that T. J. Yates interrupted Judge Nunn in his speech, stating that I had made a false statement in my affidavit by saying that I was not furnished a free tick-to-to-and-fro from Lexington, but that he (Yates) took the money out of his pocket and paid for my ticket. Now, I want to say that Mr. Yates had several tickets and they were all alike, and he had one or two tickets that were not used, but said that they were sent to him from Louisville and that he had to leave them and for that reason he did not expect to leave them in Louisville. Mr. Yates may have paid for my ticket, but if he did, I would like for him to explain what he was doing with sixteen tickets when there were only thirteen or fourteen of us went, and why he would buy any extra tickets.

I will further say that there were others who went to Lexington with me, who if called upon will state what I have here stated.

Now, in conclusion, I will say that I was at that time for John Young for governor, but I am not now. I am for Goebel and the whole Democratic ticket, and I appeal to all honest Democrats who know the facts of the Brown movement as I know them, to vote for Wm. Goebel, and not use him as tools for the L. and N. railroad.

Little Walter Weldon has been very sick for ten days, but is better at this writing.

CHAPEL HILL.

Those on the eck list are Norval Bigham, Willie Clement, Emery Stovall and Reba Hill.

Charlie Clement is building T. M. Hill's house.

Horace Williamson has been in our midst making molasses.

John Baird has sold his farm to his brother, Bob Baird.

Mrs. Lee Hughes has returned from Kansas where she has been visiting relatives.

Andy Walker will haul some logs for W. H. Bigham this week.</p

Mr. Lee Cook, of Hebron, was in town Tuesday. Mr. Cook probably leaves home a less number of times in a year than any other Hale and hearty man in the county. He comes to town about twice a year, and that is about the extent of his visits.

Mr. W. D. Haynes has succeeded Mr. A. B. Phipps, sexton of the new cemetery. The work could not have fallen into better hands. Mr. Haynes has good taste about keeping the premises, and a more accomodating gentleman could not be found in the town.

A TRIBUTE

To the Memory of a Young Kentuckian Who Died out West.

Dr. W. H. Padon died at his home in this city, Tuesday evening at 6:20 o'clock, after an illness of one week. But few even of his intimate friends knew of his serious illness and the announcement of his death came as a shock to the entire community. The Doctor was not feeling well Sunday a week ago, but did not take to his bed until next day. He had the benefit of his own knowledge and experience, that of his partner and brother-in-law, Dr. Lowery, and other resident physicians and they unhesitatingly pronounced the manly Morbus Maculosis. Wethill From the start Dr. Padon preached his death while some of the other physicians held that the changes were in favor of his recovery, and not until Tuesday noon did they give up all hope, and announced that death was inevitable. The disease was of as rare a type as the world over, and is seldom met with in general practice, and in spite of the care and treatment of loved ones and valued friends, proved fatal and the King of Shadows has again claimed a shining mark. The author might have well meant Doctor Padon when he exclaimed: He whom the Gods love, destroy, while he is in his senses and in judgment, for the genial gentleman possessed all of those attributes. During his illness he was as kind, patient and ever thoughtful of those around him, and viewed death with that calm resignation only characteristic to those who die in the Lord.

Calum he looked on either life, and here Six nothing there to regret or there to fear; From Nature's temperate feast rose satisfied. Thanked Heaven that he had lived and that he died."

It is his desire, with his fellowmen, upright and honest, he was always and under all circumstances a man, an such a man as Shakespear describes when he says: "He was a man, take him all in all, I shall not look upon his like again." Doctor Padon came to Blackwell in the fall of 1893, and immediately became identified with our best interests; during the trying times of '93-'94 and '95, he never withheld the ministrations of his hands or his worldly goods from the sick and the afflicted, and by his humanitarian acts endeared himself

to all the residents of the town.

Sam Brightman and Miss Sarah Hines were united in marriage Saturday at Bells Mines. May peace and prosperity follow them through life.
